Satisfactory.

Overall college is good, but teaching staff is very bad they don't know how to deal with students, they have knowledge, but they can't acknowledge students 😞

classes should be more than theory

suggestion

There should one play ground Its

great

Faculty and infrastructure is best students need to be obedient

Keep more practical than theory which makes learning easy n more involvement of each individual than compared to theory lecture it's very difficult for introverts to come forward n answer or have word about their mistakes n all where in practical makes individual involvement just by faculties have a look at the world of each one can give them a brief idea about the student potential n knowledge n they can work accordingly
