NA

As the syllabus cannot be changed every year, special lectures should be introduced for teaching based on the topics from modern trends & changes in the industry.

Greetings! I am a hospitality consultant with an experience of over two and half decades, my last designation being Executive Housekeeper with IHCL, currently a visiting faculty and freelance consultant. I was deputed as a faculty Housekeeping due to my prior experience with luxurious hotels, upgraded myself to take up HRM and Facilities Planning and Design. I am stating the above as I had to upgrade my knowledge to be able to conduct sessions for Huddersfield University, UK learning outcomes for students. I did not get that kind of education at National Council Pusa syllabus(1993-96 batch). Definitely syllabus needs a change. As a EHK I found that the trainees need more focus on OJT which will make them get fair knowledge. What students learn at Institute is not always what is practiced. Starting with colour coded dusters, chemicals to operating equipments, knowing different formats at work. Huge difference what is expected and what is taught at institute. I chose to be back in operations, we need faculty updated with current practices in the industry to give back to the students. If skills are low, students get job offers at lower levels. The fees paid for course do not justify the pay scales hence students do not continue working. High Attrition, lack of skilled employable labour force, unfair pay, unfair work conditions are a big challenge to our industry specially after pandemic.

The hotel management curriculum needs to change as modern hospitality business has taken a huge leap and the education is outdated

Today's age is of social media, internet... Need to add these concepts in current curriculum... All book keeping to be omitted

The best entrepreneurs are made by teachers. ... Failure is at the heart of entrepreneurship. ...
